REPORT OF BOARD OF DIRECTORS

The Directors of your Company are pleased to present their financial report for the third quarter ended 30 June 2021, together with the condensed interim financial information of the Company for the period ended 30 June 2021.

Business Overview

Overall sales volumes and profitability of Archroma's specialty chemical products' continued to maintain the trend of previous quarter and showed positive development for the third quarter under review, as well. Our major consumption markets i.e. Textiles and Construction Industry continued to grow on the back of Government support and fiscal measures to maintain relatively stable foreign exchange parity and economical financing which has perpetuated the demand for Pakistani Textiles for Exports and continued the buoyancy for new Housing and Mega infrastructure related Construction projects.

Your Company achieved net sales of PKR 14,843 million during the nine months ended 30 June 2021 versus PKR 11,584 million in comparison to the same period last year. Contribution to the overall sales growth of 28% has mainly come from Brand & Performance Textile Specialties which grew by 30% and Coating Adhesive & Sealants which increased by 38%.

Apart from the topline growth, post-COVID efficiency improvement projects launched by your Company have also positively contributed towards improvement in certain operational and fixed costs. Moreover,

On behalf of the Board

Mujtaba Rahim Chief Executive Officer relatively stable Pak Rupee and lower borrowing costs have led to strong bottomline profitability of PKR 1,756 million during the nine months under review versus PKR 783 million for the same period last year.

Future Outlook

With the continued availability of Textile industry's Export orders, outlook remains positive for Home Textiles as well as Denim & casual wear for the last quarter of the current financial year. Moreover, with the continuation of Government's support package for the calendar year 2021, the construction activity is also anticipated to positively drive related businesses.

Your Company continues to work on many post- COVID initiatives, the benefits of which are not only expected to further improve the business portfolio but also speed & agility to smartly manage cash-flows & fixed costs, going forward.

However, the above will continue to remain dependent on the severity of the 4th wave currently affecting both the local and Global COVID spread & control situation.

Composition of Board

The composition of the Board is as follows:

a) Male members: 6 b) Female member: 1

Out of the above:

a) Executive Director: 1b) Non-Executive Directors: 4c) Independent Directors: 2

1.2 Impact of COVID-19 on the condensed interim financial statements

The COVID-19 pandemic has spread rapidly all across the world and has not only endangered human lives but has also adversely impacted the global economy. In March 2020, the Government of Pakistan announced a temporary lock down as a measure to reduce the spread of the COVID-19. The management has taken all necessary steps to ensure smooth and adequate continuation of its business by following standard operating procedures (SOPs).

In view of the financial and operational effects of COVID-19 on the Company's business and disclosures, the management has assessed the accounting implications of these developments on these condensed interim financial statements, including but not limited to following areas: expected credit losses and modification of financial liability under IFRS 9, 'Financial Instruments', impairment of tangible and intangible assets under IAS 36, 'Impairment of Assets', net realisable value of inventory under IAS 2, 'Inventories' and going concern assumption used for the preparation of these condensed interim financial statements.

According to management's assessment, there are no material implications of COVID-19 that require specific disclosure in these condensed interim financial statements.

2. BASIS OF PREPARATION

2.1 Statement of compliance

These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan comprise of:

For the nine months period ended 30 June 2021

- International Accounting Standard (IAS) 34 "Interim Financial Reporting" issued by the International Accounting Standards Board (IASB), as notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34 or IFAS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Basis of measurement

These condensed interim financial statements have been prepared on the historical cost convention, except as stated otherwise.

These condensed interim financial statements of the Company do not include all of the information required for annual financial statements and should be read in conjunction with the annual financial statements of the Company as at and for the year ended 30 September 2020. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last annual audited financial statements.

These condensed interim financial statements are being submitted to the shareholders as required by listing regulations of Pakistan Stock Exchange vide section 237 of the Companies Act, 2017.

2.3 Functional and presentation currency

These condensed interim financial statements are presented in Pakistan rupees which is also the Company's functional currency and all financial information presented has been rounded off to the nearest thousand, except otherwise stated.

2.4 Use of estimates and judgements

In preparing these condensed interim financial statements, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual result may differ from these estimates.

The significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those described in the annual financial statements as at and for the year ended 30 September 2020.

2.5 Standards, interpretations and amendments to published accounting and reporting standards that are not yet effective

The following International Financial Reporting Standards (IFRS) as notified under the Companies Act, 2017 and the amendments and interpretations thereto will be effective for accounting periods beginning on or after 01 January 2021.

For the nine months period ended 30 June 2021

- COVID-19-Related Rent Concessions (Amendment to IFRS 16)— the International Accounting Standards Board (the Board) has issued amendments to IFRS 16 (the amendments) to provide practical relief for lessees in accounting for rent concessions. The amendments are effective for periods beginning on or after 1 June 2020, with earlier application permitted. Under the standard's previous requirements, lessees assess whether rent concessions are lease modifications and, if so, apply the specific guidance on accounting for lease modifications. This generally involves remeasuring the lease liability using the revised lease payments and a revised discount rate. In light of the effects of the COVID-19 pandemic, and the fact that many lessees are applying the standard for the first time in their financial statements, the Board has provided an optional practical expedient for lessees. Under the practical expedient, lessees are not required to assess whether eligible rent concessions are lease modifications, and instead are permitted to account for them as if they were not lease modifications. Rent concessions are eligible for the practical expedient if they occur as a direct consequence of the COVID-19 pandemic and if all the following criteria are met:
 - the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
 - any reduction in lease payments affects only payments originally due on or before 30 June 2021; and
 - there is no substantive change to the other terms and conditions of the lease.
- Interest Rate Benchmark Reform Phase 2 which amended IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 is applicable for annual financial periods beginning on or after 1 January 2021, with earlier application permitted. The amendments introduce a practical expedient to account for modifications of financial assets or financial liabilities if a change results directly from IBOR reform and occurs on an 'economically equivalent' basis. In these cases, changes will be accounted for by updating the effective interest rate. A similar practical expedient will apply under IFRS 16 for lessees when accounting for lease modifications required by IBOR reform. The amendments also allow a series of exemptions from the regular, strict rules around hedge accounting for hedging relationships directly affected by the interest rate benchmark reforms. The amendments apply retrospectively with earlier application permitted. Hedging relationships previously discontinued solely because of changes resulting from the reform will be reinstated if certain conditions are met.
- Onerous Contracts Cost of Fulfilling a Contract (Amendments to IAS 37) effective for the annual period beginning on or after 1 January 2022 amends IAS 1 by mainly adding paragraphs which clarifies what comprise the cost of fulfilling a contract, Cost of fulfilling a contract is relevant when determining whether a contract is onerous. An entity is required to apply the amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments (the date of initial application). Restatement of comparative information is not required, instead the amendments require an entity to recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate, at the date of initial application.

Annual Improvements to IFRS standards 2018-2020:

The following annual improvements to IFRS standards 2018-2020 are effective for annual reporting periods beginning on or after 1 January 2022:

IFRS 9-The amendment clarifies that an entity includes only fees paid or received between
the entity (the borrower) and the lender, including fees paid or received by either the entity
or the lender on the others behalf, when it applies the 10 per cent test in paragraph B3.3.6 of
IFRS 9 in assessing whether to derecognize a financial liability.

For the nine months period ended 30 June 2021

- IFRS 16- The amendment partially amends Illustrative Example 13 accompanying IFRS 16 by
 excluding the illustration of reimbursement of leasehold improvements by the lessor. The
 objective of the amendment is to resolve any potential confusion that might arise in lease
 incentives.
- IAS 41 The amendment removes the requirement in paragraph 22 of IAS 41 for entities to
 exclude taxation cash flows when measuring the fair value of a biological asset using a
 present value technique.
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16) effective for the annual period beginning on or after 1 January 2022. Clarifies that sales proceeds and cost of items produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management e.g. when testing etc., are recognized in profit or loss in accordance with applicable Standards. The entity measures the cost of those items applying the measurement requirements of IAS 2. The standard also removes the requirement of deducting the net sales proceeds from cost of testing. An entity shall apply those amendments retrospectively, but only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. The entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of that earliest period presented.
- Reference to the Conceptual Framework (Amendments to IFRS 3) Reference to the Conceptual Framework, issued in May 2020, amended paragraphs 11, 14, 21, 22 and 23 of and added paragraphs 21A, 21 B, 21 C and 23A to IFRS 3. An entity shall apply those amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 January 2022. Earlier application is permitted if at the same time or earlier an entity also applies all the amendments made by Amendments to References to the Conceptual Framework in IFRS Standards, issued in March 2018.
- Extension of the Temporary Exemption from Applying IFRS 9 (Amendments to IFRS 4) In response to concerns regarding temporary accounting mismatches and volatility, and increased costs and complexity, the Board issued amendments to IFRS 4 Insurance Contracts in 2017. The two optional solutions raised some considerations which required detailed analysis and management judgement. On the issue of IFRS 17 (Revised) Insurance Contracts in June 2020, the end date for applying the two options under the IFRS 4 amendments was extended to 1 January 2023, aligned with the effective date of IFRS 17.
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28) The amendment amends accounting treatment on loss of control of business or assets. The amendments also introduce new accounting for less frequent transaction that involves neither cost nor full step-up of certain retained interests in assets that are not businesses. The effective date for these changes has been deferred indefinitely until the completion of a broader review.
- Classification of liabilities as current or non-current (Amendments to IAS 1) effective for the annual period beginning on or after 1 January 2022. These amendments in the standards have been added to further clarify when a liability is classified as current. The standard also amends the aspect of classification of liability as non-current by requiring the assessment of the entitys right at the end of the reporting period to defer the settlement of liability for at least twelve months after the reporting period. An entity shall apply those amendments retrospectively in accordance with IAS 8.

The above amendments are effective from annual period beginning on or after 01 January 2021 and are not likely to have an impact on Company's financial statements.

For the nine months period ended 30 June 2021

18. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial risk management objectives and policies are consistent with those disclosed in annual financial statements of the Company as at and for the year ended 30 September 2020.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Inputs for the asset or liability that are not based on observable market date (i.e., unobservable inputs).

For the nine months period ended 30 June 2021

18.1 Accounting classifications and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.
